

## How to make my snowman

By: Olivia7a

1. Use the shapes to make a circle about 2 inches in width and length, with an outline size of 5, fill color white, and line color of black. (It will be the bottom circle) Make it on the bottom of the page a little more left than right
2. Make another circle using the shapes the same line color, fill color, and outline size. Have it about 1 ½ inches in width and length. (It will be the middle circle) Put it vertically on top of the bottom circle.
3. Make another circle the same as the last two but have it a bit taller than them. It will be 1 ¼ inches tall and 1 inch long. (it will be the head) Stack it vertically on top of the middle circle.
4. Make arms that are color number 663300 (a brown) with a line size of 12, sticking out straight of the middle circle (on each side.) Each about 1 ½ inches long. Then make 3 fingers the same color but ¼ inches long and sticking out of the end of the arms at a 90° angle.
5. Draw a nose in the shape of a triangle with a line color of ff6600 (an orange) and line size of 7 it will be about ¼ inches wide and ¼ inches long in the middle of the head. Make the tip of it pointing to the left
6. Make 2 eyes with a line color of 000000 (a black) and a line size of 7. It will be ¼ inches long and wide at the top of the head.
7. Make a mouth by having a line color and line size the same as the eyes but draw the circles a bit smaller than them and make four pebbles.
8. Make a scarf by having a line color of 333399 (a purplish blue) and a line size of 11 draw a straight line across the neck about 1 inch long then make a straight line going down starting from the right side of the scarf on the neck about 1 ¼ inches long. You need to make stripes on the scarf by having a line color of 339999 (a turquoise) and line size of 7. Make vertical stripes on the scarf on the neck and horizontal stripes on the scarf going down.
9. Make a stocking hat by having the line color of 333399 (a dark purple) and line size of 5. The tip of it should be facing the left and there should be 3 strings coming out of the tip each about 1 cm. long. The hat should start at about the middle of the head and should curve around it until you get to the tip.
10. Make the sled by having a line color of ff00ff (a pink) and a line size of 20. It will be about 4 inches long and wide. It should start around the top of the bottom circle behind the snowman. It will be a circle sled and do not draw on the bottom circle draw around it.
11. Make a mountain by having a line color of 000000 and line size of 17. Start drawing at the top left hand side of the screen and start inching toward the right until you are sort of at the middle and hit the snowman. Then you should draw less than an inch till the bottom of the screen at the bottom of the sleigh.
12. Make a sun by having a line color of ffff00 and line size of 17 and draw in the right hand side of the screen. Make it about 1 inch long and 2 inches wide. There will be about ¼ of a circle showing and 3 rays coming off of it.
